

CELEBRATING 14 YEARS OF BUSINESS WITH

# Elon University

Historic Private University in Elon, North Carolina

Elon University has undergone a sizeable amount of construction in the last several years. They are currently working on a new addition to their business school and are about to finish a new gymnasium and communications building. The university includes Elon College, the College of Arts and Sciences; the Martha and Spencer Love School of Business; the School of Communications; the School of Education; the School of Health Sciences; and the School of Law, which is located on a campus in downtown Greensboro, North Carolina. "Typically what we've done, is any new building or parking lot gets at least one Talkaphone unit. If it's a bigger parking lot, we'll put two up," says Chief of Campus Security, Scott Jean. The new

smart phones now but the blue lights are still a good thing to have - students and parents like to physically see something," says Jean.

As they expand their security footprint along with their growing campus, Elon University has potential plans for additional cameras to their Talkaphone towers, as well as adding Talkaphone's WEBS Mass Notification loudspeaker system to the campus. Partnered with Talkaphone for many years now, Scott Jean sites the quality of the equipment and the customer service as some of the key reasons, "We have a good relationship with Talkaphone and the equipment has always been reliable."

## Campus Safety

security solution for Elon University with Talkaphone combines emergency phones, cameras, safety apps, and an alert notification system to keep their students and faculty safe. The blue light towers are a key component for the university, adding a highly

“ Makes students feel safer when they know they're going to be in these parking lots at night or other areas of the campus. ”

--Scott Jean, Chief of Campus Security

visible measure of security to deter potential criminals and provide a sense of security for students and faculty on the historic 636-acre campus. "It definitely makes students feel safer when they know they're going to be in these parking lots at night or other areas of the campus. Everybody has
