MASS TRANSIT EMERGENCY COMMUNICATIONS SOLUTIONS

SAFETY FOR YOUR FACILITY
INSIDE AND OUT

TALKAPHONE MANUFACTURES THE MOST ADVANCED AND RELIABLE EMERGENCY TELEPHONES (ETEL), BLUE LIGHT STATIONS (BLS) AND PASSENGER ASSISTANCE TELEPHONES (PTEL) TO PROTECT TRAVELERS AND SAFEGUARD TRANSIT FACILITIES AROUND THE WORLD.

From elevated platforms to underground tunnels, from moving trains to parking lots, Talkaphone offers powerful instant emergency communication, public address and video surveillance packages, which keep you safe and connected.
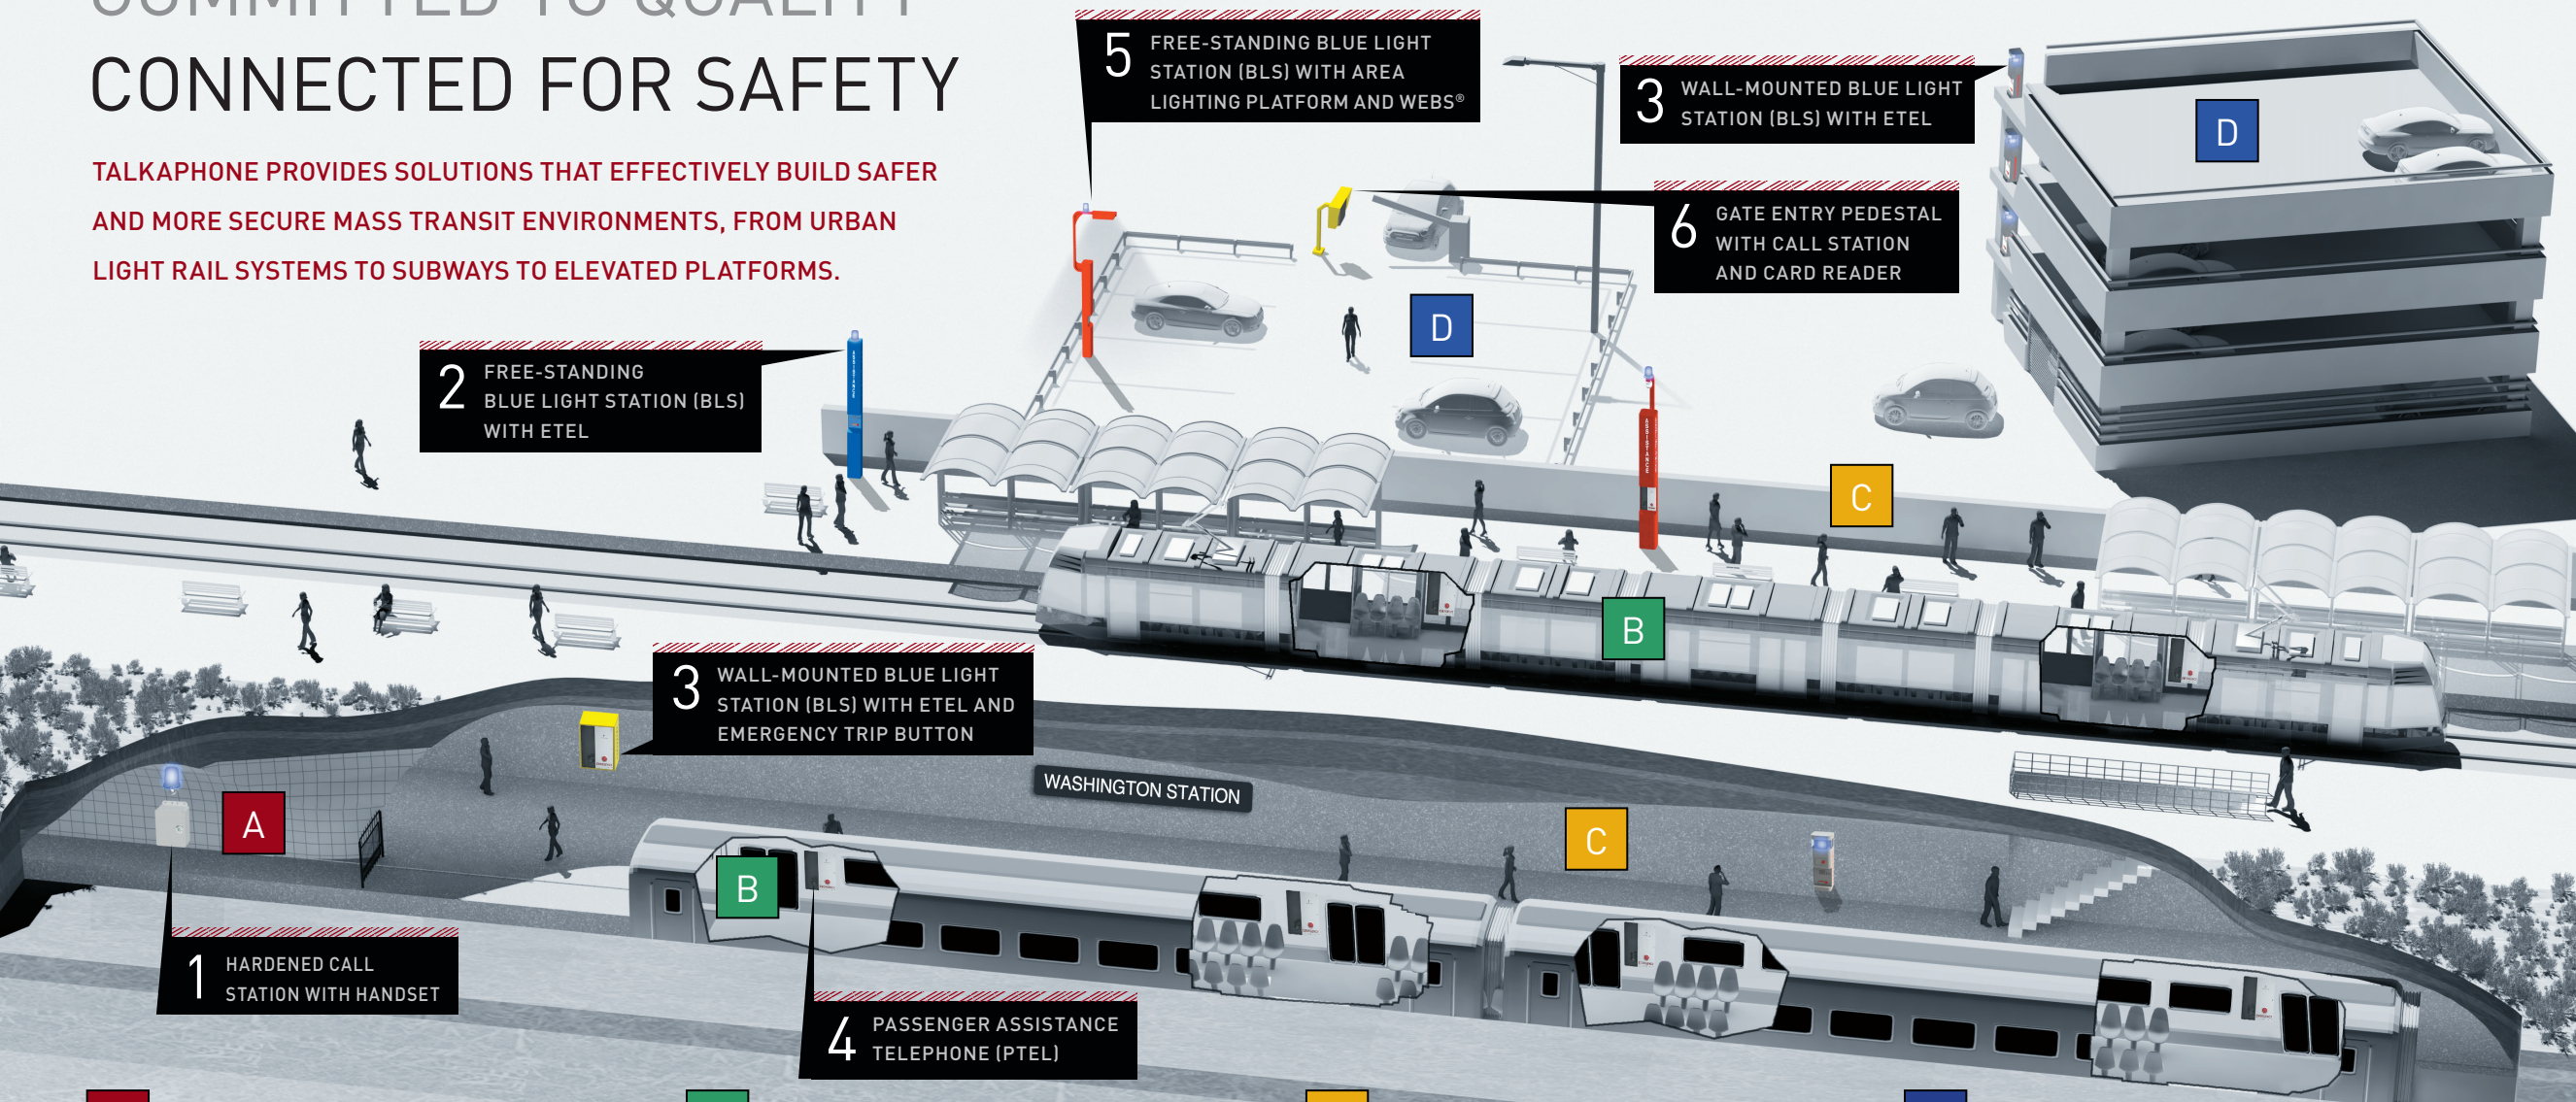

Using the broadest range of ADA-compliant security and life safety communication solutions, and the most knowledgeable and committed system design and support team, we help you comply with the latest mass transit security initiatives, and we empower travelers and staff to respond to medical and personal emergencies.

With comprehensive solutions and dedicated support, it's no wonder Talkaphone has been the trusted source for communications solutions for over 80 years. Together, we can help protect the safety of passengers and personnel alike at your facility — all while providing the peace of mind that comes with comprehensive security. That's the Talkaphone difference.

TALKAPHONE OFFERS MORE THAN EMERGENCY COMMUNICATIONS SOLUTIONS. WE EMPOWER PEOPLE TO MAKE A DIFFERENCE.

COMMITTED TO QUALITY
CONNECTED FOR SAFETY

TALKAPHONE PROVIDES SOLUTIONS THAT EFFECTIVELY BUILD SAFER AND MORE SECURE MASS TRANSIT ENVIRONMENTS, FROM URBAN LIGHT RAIL SYSTEMS TO SUBWAYS TO ELEVATED PLATFORMS.

5 FREE-STANDING BLUE LIGHT STATION (BLS) WITH AREA LIGHTING PLATFORM AND WEBS®

3 WALL-MOUNTED BLUE LIGHT STATION (BLS) WITH ETEL

6 GATE ENTRY PEDESTAL WITH CALL STATION AND CARD READER

2 FREE-STANDING BLUE LIGHT STATION (BLS) WITH ETEL

3 WALL-MOUNTED BLUE LIGHT STATION (BLS) WITH ETEL AND EMERGENCY TRIP BUTTON

WASHINGTON STATION

1 HARDENED CALL STATION WITH HANDSET

4 PASSENGER ASSISTANCE TELEPHONE (PTEL)

A TUNNEL
- Facilitate private conversations in noisy environments with a hardened call station with handset
- Leverage blue lights to identify call box locations and signal emergency events

B IN CAR
- Enable two-way communication and silent monitoring in trains with passenger assistance telephones (PTEL)
- Send intelligible audio broadcast at over 100 dB to anyone, a group or all PTEL units

C PLATFORM
- Empower travelers to intervene in emergency situations and halt incoming trains, when necessary
- Keep platforms safe and connected with free-standing blue light stations
- Leverage optional video surveillance to track and monitor activity on platforms and stations

D TRANSIT PARKING
- Regulate parking lot access using gate entry pedestals with call stations and card readers
- Provide emergency call stations and deter unauthorized activity with vandal-resistant towers equipped with area lighting platforms
- Trigger lights to flash or increase their brightness automatically when call station is activated or through video analytics
- Leverage optional video surveillance to track and monitor outdoor activity
- Use silent monitoring to listen in on select locations and situations
- Use optional Scream Alert® to automatically summon help on scream detection
